

An Informative Half-day Workshop:

Steel Erection

MIOSHA Construction Safety Standards Part 26

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with MIOSHA

2 Why You Need This Workshop . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high direct costs of work-related injuries, which grew to \$42.5 billion nationally in 2000, and indirect costs, which were estimated at an additional \$127 - \$212 billion in 2002. (*2003 Liberty Mutual Safety Index*.)
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces worker's compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

This workshop is designed for all construction employers and employees engaged in steel erection activities. General contractors, subcontractors, and others directly involved in site control would especially benefit. The focus is on fall protection, falling object hazards, and the maintenance of structural integrity during the construction process.

Agenda

- ▶ Changes concerning responsibility of steel contractors and general contractors
- ▶ Written notifications
- ▶ Fall protection requirements and turnover to general contractor
- ▶ Training requirements
- ▶ C D Z specifications
- ▶ Falling object protection
- ▶ Concrete and mortar testing
- ▶ Multi-lift rigging
- ▶ Erection plan
- ▶ Site preparation requirements
- ▶ Questions and Answers

Facilitator

Tom Swindlehurst is a Construction Safety Consultant in the Consultation Education and Training Division of MIOSHA with over 40 years experience in the construction industry. He began his State service in 1989 with the construction enforcement division and transferred to the CET Division in 1995 as an on-site consultant performing hazard surveys. In 2001, he moved to his current position where he focuses on consultation and training for employers and employees.

Tom has authored many articles on construction safety and has presented at hundreds of training sessions for both management and labor in the construction field. He has a Bachelor's degree in Supervision and Management from Central Michigan University and is a Vietnam veteran. His passion and commitment to safety are a result of his own personal experiences during his many years in the construction industry.

Tom Swindlehurst
*Construction Safety Consultant,
MIOSHA, CET Division*
